

HISTORY REPORT

The image shows a web application interface for a 'Health Tracker'. On the left is a green sidebar with a clock icon and the text 'Health Tracker' and 'Patient History'. On the right is a white panel titled 'Activity History' with a close button (X) in the top right corner. Below the title is a dropdown menu currently set to 'Items: All'. Underneath the dropdown is a search bar and a green 'Search' button. A list of activity items is displayed below the search bar, showing dates, times, and categories like BMI, Daily, and Symptoms. At the bottom of the panel are two buttons: 'Refresh' and 'Back to Dashboard'.

Figure 1. UI Form of Symptoms Checker with it displayed the history of the user.

This image is similar to Figure 1, but the dropdown menu for 'Items: All' is open, showing a list of options: 'Items: All', 'Daily', 'Symptoms', and 'BMI'. The 'Items: All' option is currently selected and highlighted in blue. The rest of the interface, including the sidebar, search bar, activity list, and bottom buttons, remains the same as in Figure 1.
